

3M® 3OPL Privacy Film

3M™ Privacy Film 3 OPL was designed for usage on the inside surface of windows.

This film is a non-transparent film with great light transmission.

This is an effective way to protect rooms from observation and provide a decorative appearance to the glass.

Technical Specifications

3OPL Privacy Film	
Visible Light Transmitted	71%
Total Solar Energy Rejected	29%
Glare Reduction	90%
Visible Light Reflection(Internal)	14%
UV Rejected	99%

Performance data generated for a typical film on 6mm clear glass using applicable industry test methods and standards. Infrared rejection measured from 900nm–1000nm.
